

THERMO ELECTRIC

IMMERSION THERMOCOUPLES

Section IMTC

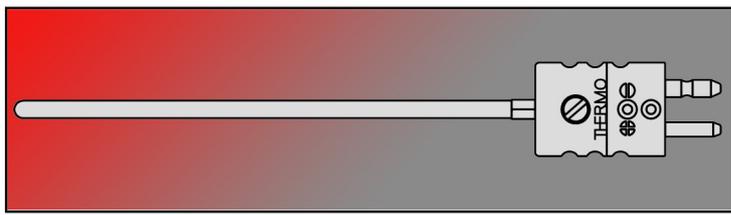

Immersion Thermocouples

Immersion thermocouples are used throughout all industries. They are generally inserted into or attached directly to the media to be measured. Instrument termination is available in a quick disconnect connector which is directly mounted to the end of the sheath or an epoxy filled transition securing flexible lead wires of various insulation depending on the conditions. Each type is available in a wide variety of configurations which may be fabricated from developed part numbers on the following pages or designed by Thermo Electric to conform to any given application. Thermocouples for your surface mounting requirements can be found in our SUTR section or where a more rugged style of connection head and well is required, refer to our industrial INTC section.

Thermo Electric Products offer the following advantages:

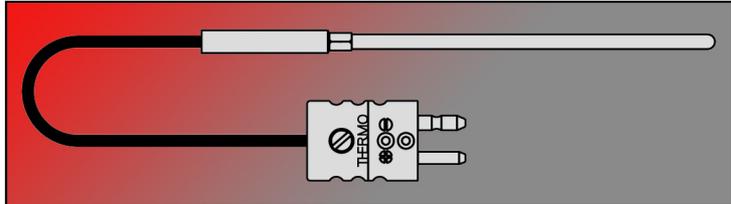

- Wide variety of construction to meet your need and budget
- Epoxy filled transitions strengthen the connection between probe and lead wire
- Hard packed MgO insulation provides premium service life for the given applications
- Calibration services available to ISA & NIST standards

IMMERSION THERMOCOUPLES

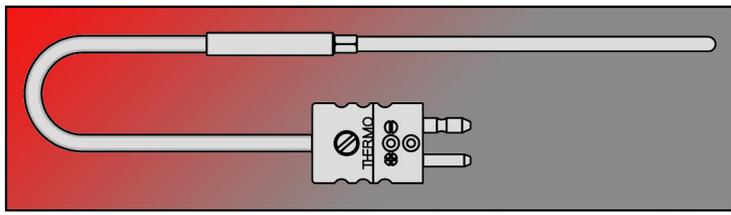

Quick disconnect connector secured directly onto the end of the sheath allows for easy assembling and disassembling using a mating connector and extension lead wire. Also available with bare ends used with site installed hardware.

Calibration: J, T, K, E, N Diameter: 1/25" through 3/8"
 Measuring Junction: Grounded, Ungrounded, Exposed Loop
 Sheath Material: 300 Series Stn. Stl., Inconel 600
 Termination: Bare ends, Quick disconnect connectors
 Single Immersion Thermocouples with Connector Termination
 See Document TE-CO010109-IMTC-010
 Duplex Immersion Thermocouples with Connector Termination
 See Document TE-CO010109-IMTC-020

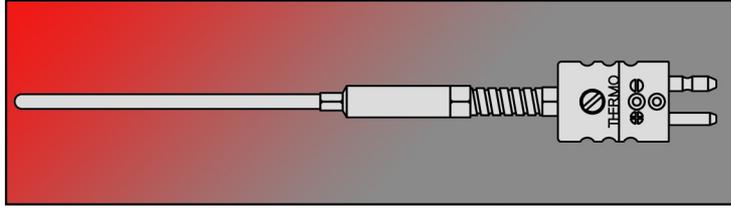

Terminated to flexible fiberglass insulated lead wire or fiberglass with a stainless steel over braid with an epoxy filled transition allows for a direct run from the process to the control panel. The fiberglass insulation is unaffected by heat zones of up to 950° F. Over braid provides additional abrasion protection.

Calibration: J, T, K, E, N Diameter: 1/25" through 3/8"
 Measuring Junction: Grounded, Ungrounded, Exposed Loop
 Sheath Material: 300 Series Stn. Stl., Inconel 600
 Lead Wire: 20 gauge standard, fiberglass insulation or fiberglass with Stn. Stl. over braid
 Termination: Bare ends, Quick disconnect connectors
 Single Immersion Thermocouples with Fiberglass or Fiberglass with Stn. Stl. Over braid
 See Document TE-CO010109-IMTC-030
 Duplex Immersion Thermocouples with Fiberglass or Fiberglass with Stn. Stl. Over braid
 See Document TE-CO010109-IMTC-040

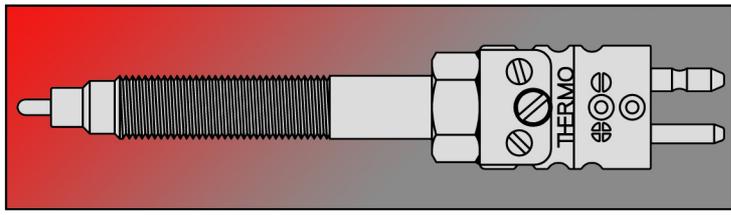

Terminated to flexible PVC (220° F) or TEFLON (400° F) insulated lead wire, PVC insulation provides excellent resistance to moisture and petroleum products, TEFLON is unaffected by most corrosives, lubricants and outdoor weathering.

Calibration: J, T, K, E, N Diameter: 1/25" through 3/8"
 Measuring Junction: Grounded, Ungrounded, Exposed Loop
 Sheath Material: 300 Series Stn. Stl., Inconel 600
 Lead Wire: 20 gauge standard, PVC or TEFLON insulation and jacketed
 Termination: Bare ends, Quick disconnect connectors
 Single Immersion Thermocouples with PVC or TEFLON insulated lead wire
 See Document TE-CO010109-IMTC-050
 Duplex Immersion Thermocouples with PVC or TEFLON insulated lead wire
 See Document TE-CO010109-IMTC-060

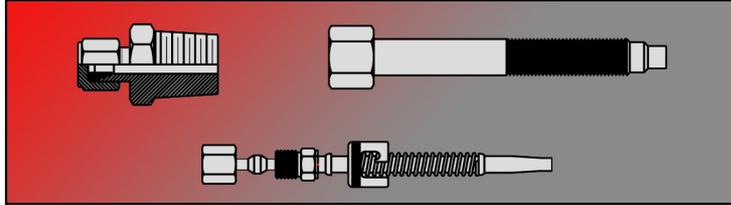

Lead wire is available in fiberglass or PVC with a flexible stainless armor tubing overall. Armor is hex crimped to the transition and crimp boss or bracketed to connectors to resist extreme physical abuse. On bare ends six inches of lead wire extends past the armor for junction box connection.

Calibration: J, T, K, E, N Diameter: 1/25" through 3/8"
 Measuring Junction: Grounded, Ungrounded, Exposed Loop
 Sheath Material: 300 Series Stn. Stl., Inconel 600
 Lead Wire: 20 gauge standard, fiberglass or PVC, flexible armor overall
 Termination: Bare ends, Quick disconnect connectors
 Single Immersion Thermocouples with PVC or TEFLON insulated lead wire
 See Document TE-CO010109-IMTC-070
 Duplex Immersion Thermocouples with PVC or TEFLON insulated lead wire
 See Document TE-CO010109-IMTC-080

Plastic melt Bolt used in plastic extruders and injection molding machines. Connection allows insertion directly into the melt stream. The short immersion length prevents the tip from interfering with the process flow.

Calibration: J, T, K, E, N
 Bolt Size: 1/2-20UNF, 3/8-24UNF(nozzle) Bolt Length: 3", 6", 9", 12"
 Termination: Bare ends, Bend able Extension, Rigid Mount Connectors, Armored Lead wire
 Single Plastic Melt Bolt Thermocouples with Armored Lead Wire
 See Document TE-CO010109-IMTC-090
 Duplex Plastic Melt Bolt Thermocouples with Armored Lead Wire
 See Document TE-CO010109-IMTC-100
 Plastic Melt Bolt Thermocouples with Bend able Extension and Rigid Connectors
 See Document TE-CO010109-IMTC-110
 Plastic Melt Bolt Thermocouples Nozzle Type
 See Document TE-CO010109-IMTC-120

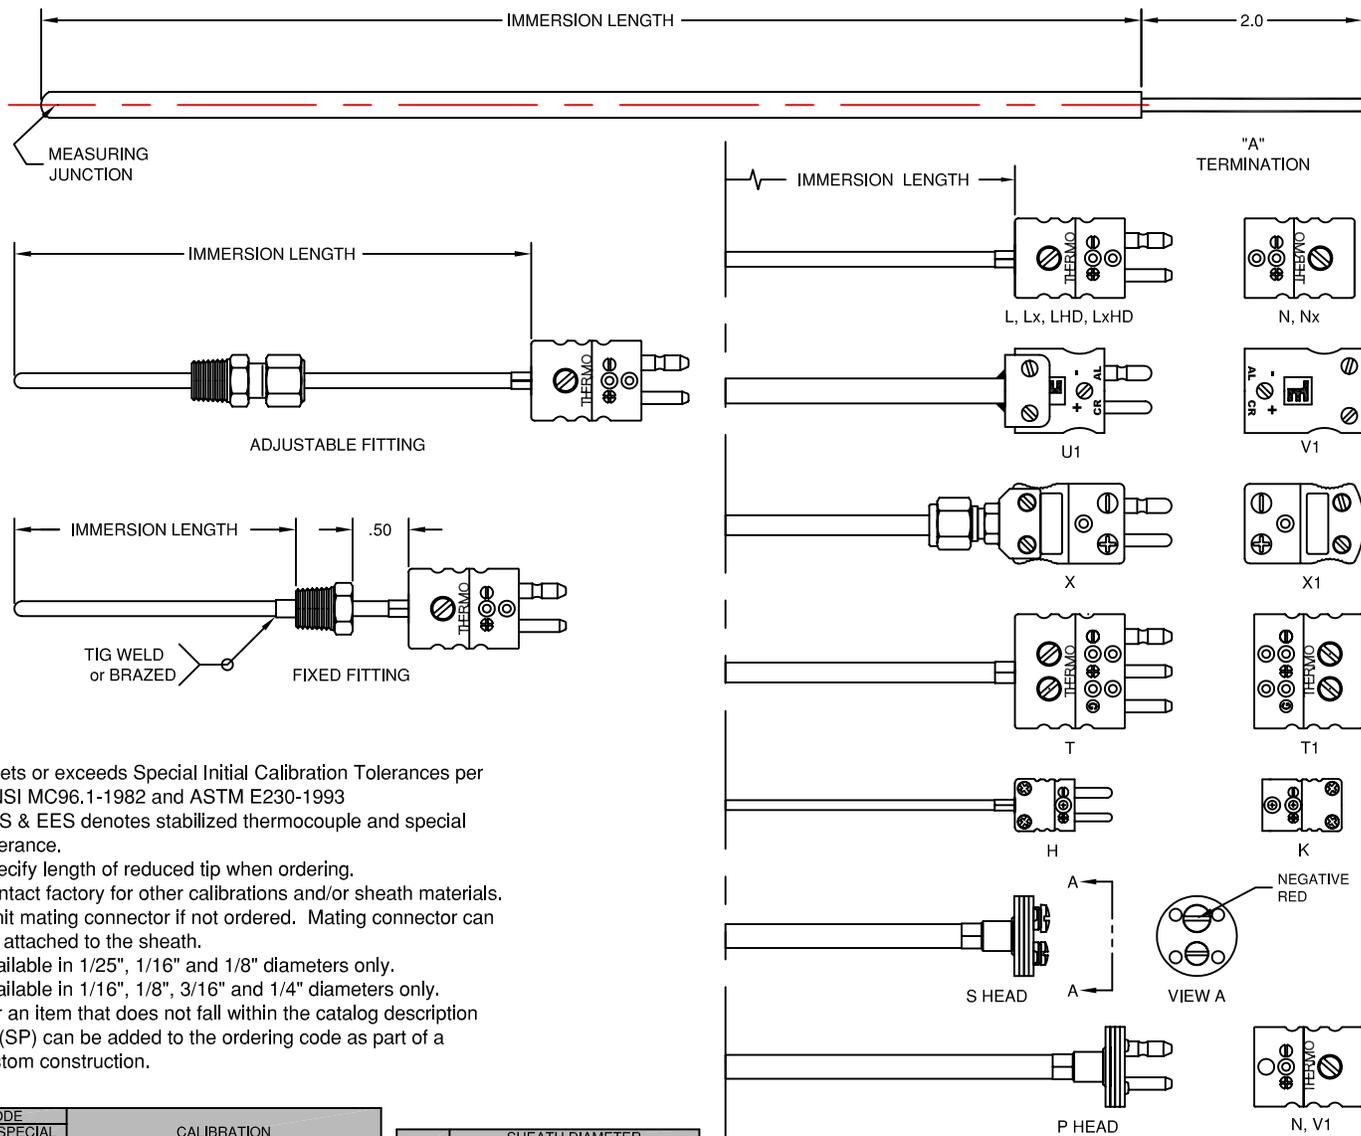

Complete supply of fitting accessories provides the means to mount any immersion thermocouple into a NPT threaded opening. Fittings can be adjusted once or readjusted using TEFLON or Lava ferrules. Adjustable Melt Bolt Thermocouple Adapter converts any 1/8" diameter immersion thermocouple into a plastic melt bolt. Adjustable spring loaded adapter converts 1/16" or 1/8" diameter immersion thermocouple into a surface type bayonet.

Bore Through Compression Fittings
 See Document TE-CO010109-IMTC-130
 Adjustable Bayonet Adapters, Plastic Melt Bolt Adapters, Waterproof Fittings,
 Strain Relief Bell Springs, BX Connectors
 See Document TE-CO010109-IMTC-140

IMMERSION THERMOCOUPLES

- Notes:**
- (1) Meets or exceeds Special Initial Calibration Tolerances per ANSI MC96.1-1982 and ASTM E230-1993
 - (2) KKS & EES denotes stabilized thermocouple and special tolerance.
 - (3) Specify length of reduced tip when ordering.
 - (4) Contact factory for other calibrations and/or sheath materials.
 - (5) Omit mating connector if not ordered. Mating connector can be attached to the sheath.
 - (6) Available in 1/25", 1/16" and 1/8" diameters only.
 - (7) Available in 1/16", 1/8", 3/16" and 1/4" diameters only.
 - (8) For an item that does not fall within the catalog description an (SP) can be added to the ordering code as part of a custom construction.

IMMERSION THERMOCOUPLES

- Notes:**
- (1) Meets or exceeds Special Initial Calibration Tolerances per ANSI MC96.1-1982 and ASTM E230-1993
 - (2) KKS & EES denotes stabilized thermocouple and special tolerance.
 - (3) Specify length of reduced tip when ordering.
 - (4) Contact factory for other calibrations and/or sheath materials.
 - (5) Standard 20 gauge stranded conductors.
 - (6) Omit mating connector if not ordered. Mating connector can be attached to the leads.
 - (7) Available with spade lugs, replace "A" with "LG".
 - (8) For an item that does not fall within the catalog description an (SP) can be added to the ordering code as part of a custom construction.

IMMERSION THERMOCOUPLES

SPECIFICATIONS

- Thermocouple
- Sheath Diameter: 1/8"
- Sheath Material: 300 Series Stn. Stl.
- Measuring Junction: Grounded
- Bolt Material: Carbon Steel
- Lead Wire:
 - Conductor Size: 20 Gauge Stranded
 - Conductor Material: T/C Alloy
 - Insulation: Fiberglass
 - Jacket: Flexible Armor, 300 Series Stn. Stl.

ORDERING CODE:

- Notes:
- (1) Meets or exceeds Special Initial Calibration Tolerances per ANSI MC96.1-1982 and ASTM E230-1993
 - (2) Bolt and Sheath available in other materials (Hastelloy C276, 300 series Stn. Stl.).
 - (3) Omit mating connector if not ordered. Mating connector can be attached to the leads.
 - (4) Available with spade lugs, replace "A" with "LG".
 - (5) For an item that does not fall within the catalog description an (SP) can be added to the ordering code as part of a custom construction.

REDUCING BUSHING

ORDERING CODE
RE1086-4

Size: 1/4"NPT Female by 1/2"NPT Male

SPECIFICATIONS

- Service: 5000 PSI @ 68° F.
- Fittings with Brass & Stainless Steel Inserts
Can not be relocated once tightened
- Fittings with Teflon Inserts
Can be relocated if used below 400° F.
- Fittings with Lava Inserts
Can be relocated if insert is replaced

IMMERSION THERMOCOUPLES

ADJUSTABLE BAYONET MOUNTING ADAPTERS

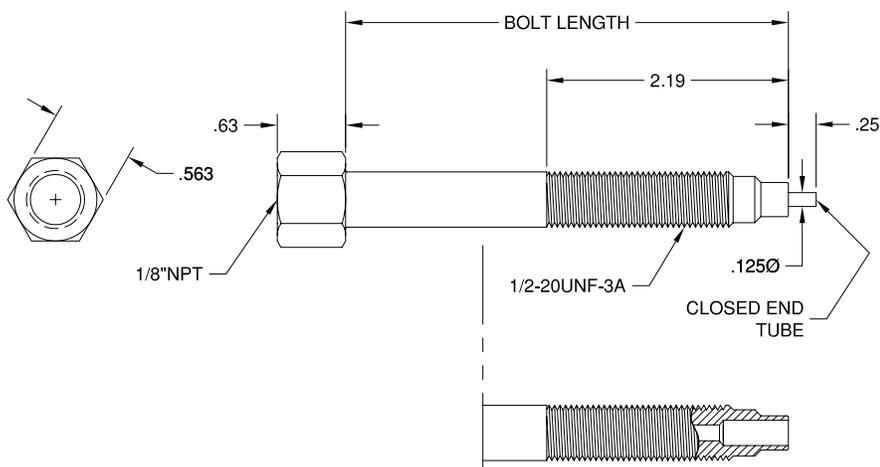

ORDERING CODE	INSERT MATERIAL	SHEATH (TUBE) DIAMETER
BY21240-1	TEFLON	1/16" (.063)
BY21240-3	BRASS	1/16" (.063)
BY21240-4	TEFLON	1/8" (.125)
BY21240-6	BRASS	1/8" (.125)

SPECIFICATIONS

1. Bayonet mounting adapters suitable for any 1/16" or 1/8" diameter immersion element.
2. Adapters with Teflon inserts are re-adjustable and rated to 500° F

PLASTIC MELT BOLT ADAPTERS

CLOSED END

ORDERING CODE	BOLT LENGTH	SHEATH (TUBE) DIAMETER
FTPM28870-1	3"	1/16" (.063)
FTPM28870-2	6"	
FTPM28870-3	12"	

SPECIFICATIONS

1. Closed end plastic melt bolt fitting suitable for any 1/16" diameter immersion element.
2. Fitting material - 304 Stainless Steel

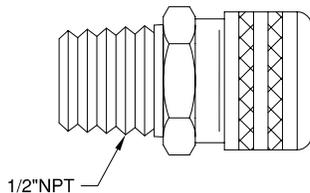

OPEN END

ORDERING CODE	BOLT LENGTH	SHEATH (TUBE) DIAMETER
FTPM28870-4	3"	1/8" (.125)
FTPM28870-5	6"	
FTPM28870-6	12"	

SPECIFICATIONS

1. Open end plastic melt bolt fitting suitable for any 1/8" diameter immersion element.
2. Fitting material - 304 Stainless Steel

WATERPROOF FITTINGS

ORDERING CODE	WIRE or ARMOR DIAMETER
CCB1637-1	.125 to .250
CCB1637-2	.250 to .375
CCB1637-3	.375 to .500

SPECIFICATIONS

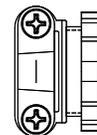

1. Fits connection heads and junction boxes with 1/2" NPT openings.
2. Steel body and cap.
3. Rubber bushing.

ORDERING CODE
SG1118

E:\New TE Catalog\Renderings\Bell Spring.tif

STRAIN RELIEF BELL SPRING

BX CONNECTORS

ORDERING CODE
CC2852-1

SPECIFICATIONS

1. Connects armor lead wire to electrical outlet boxes.
2. Material - Cast Zinc.
