

As our colleagues did in 1941...  
... Let's make 2021 the start of new successes

**Dear All,**

As 2020 is coming to an end, we would like to share with you our best wishes for 2021 and, at the same time, we would like to share with you our happiness and gratitude that Thermo Electric team succeeded to stay in good health while servicing our customers during this exceptional year.

2020 was exceptional to say the least. The COVID-19 global pandemic impacted too many families around the world. Today, too many families are mourning. Today, too many families full of health professionals, first responders and essential workers are exhausted by the challenges they had to face over the last 10 months. And today, we are all looking forward to a new year full of health, faith and confidence in a positive future.

2020 forced us to adapt and to develop a unique level of resilience to weather the storm. As a result, at Thermo Electric, we are entering 2021 stronger than ever in our motivation to start new successes with our customers.

2021 will be the year of new successes. In 2021, Thermo Electric will proudly celebrate its 80<sup>th</sup> anniversary and you can count on our team to proudly honor all our former colleagues who made Thermo Electric's past and future successes possible.

In 2021, we are committed to stay the course with our mission to be your trusted expert in temperature measurement solutions.

**Happy New Year to All.**
